

ABSTRACT

PATTERN COIN is a virtual reality platform taking the advantage of decentralized crypto block chain technologies to enhance its functionalities and abilities.

After undergoing a various analysis our founder and team found a way to combine the decentralized virtual reality with real world concept and bring out an amazing end product in 2021. Now we had created a new experience in the crypto market where creator and investors are together empowered.

PATTERN COIN smart contract was unique one with advantages for real world usage, The contract was also well audited and verified by experts. The contract was deployed in Binance Smart Chain in 2021.

Our Platform

PTTN platform contains 4 layers which are interrelated with each other and making this as a value added products.

1. PTTN Token Contract:

PTTN Token contract is the base of our platform which acts as the core for all projects.

2. PTTNcoin.io:

Pttncoin.io act as a both ICO and fund rising program for Pattern coin, PTTNcoin.io was a direct selling program which yields a good output by reaching a large number of peoples. Through Pttncoin.io initial coin offering has been gone very smooth and in a controlled fashion. So there was no need for air dropping PTTN coin.

3. Crypto Purse

A complete decentralized exchange. Which allows users and buyers can exchange PTTN tokens along with other crypto currency.

Crypto purse had both Peer to Peer and traditional way of currency trading in use. This has become first PTTN token exchange system in the market.

4. Real world Applications

Our last entity of the platform was the applications which uses in the real world. Any crypto currency will get the real value when it's been used in the real world by the peoples hence the demand and value of the token get increased.

To promote **Pattern coin** we our self launches few real world applications, to start with

- **Income From Expense** – An direct selling program which in returns gives you what you have spend in the market by paying only 10% of the bill.
- **Bizvispro** – A online directory which uses pattern coin as its currency to list business.
- **PTTN Plus-** This was a decentralized program which multiplies your funds through an special matrix algorithm

- **PTTN Pro-** An android auto boat to buy and sell crypto currency based on your settings . Uses PTTN coin as main currency
- **IFE Mart-** A pure multi seller E-commerce portal, Main currency will be PTTN
- **Used Car Bike-** Now one can buy and sell used cars and bike through PTTN.
- **Grocery Mobile App** – We are developing grocery mobile application which customers can purchase grocery using PTTN tokens.

Each of this real world applications where explained more detail in the appropriate websites.

Along with our in house projects PTTN token where used by other teams like gaming portals as their own currency which makes PTTN as prominent currency in the market. We had other non in house real world applications in pipe line which going to create huge demand for the PTTN token in the market.

PTTN Mechanics

Pattern token (PTTN) is a BEP20 token which was deployed in Binance Smart Chain. PTTN token works together with the real world applications. The token had a strict supply limit with the initial supply to increase the demand in the market.

Any how the Initial token generated can be minted through staking in PTTNcoin.io.

PTTN coin.io is responsible for minting the coin to the market, Managing the liquidity and rewarding. PTTNcoin.io algorithm where build by our own which helps to slowly mint the rewards as the time goes by. Based on algorithms trends it will take around 4 years to reach the highest difficulty in minting the currency.

We also use pancake swap to create liquidity pairs and generate our own LPT farms.

Stacking is the coin is the only way to mint the coin, Now we had 2 different staking program running in the market. PTTN.io and PTTN plus. With this two invincible program one can easily mint the coin.

Exchange once one had enough PTTN in hand and he can sell it though the exchange and get the currency back through Peer to peer system or through traditional wallet system. We do always have high demand for PTTN in the exchange.

Security

Admin Rights:

The founder holds the rights to modify the configurations of staking contracts, However administrator will have any access to peoples liquidity their individual token on their own wallet or PTTN project wallets. Anyhow minting algorithm difficulty can be modified by admin.

Minting new coins:

Since the coin was deployed already new coins cannot be generated but though staking and mining the coins can be mined. Founder holds approximately 10% of the initial coin supply as reserved fund to run the company.

Investors:

We ensure to make fair & honest launch on each project and stay connected with our investors in a best manner. We are developing a community to help each other . Anyhow every investors should evaluate the risks related to the PTTN projects by him/herself.

Token Distribution

Token Details:

Name : Pattern Coin

Symbol: PTTN

Decimal: 12 Digits

Type : BEP 20

Network: Binance Smart Chain

Contract Address: 0xb4052e58a69aaca683e7999c7981f4c4c324d917

Distribution:

Total Supply: 10,000,000,000,000

Minted in Circulation: 36,177,191

Token allocation in Percentage

ICO : 1%

Team Holdings: 20%

Developers: 5%

Liquidity: 7%

Rewards Minting Program: 67%

Road Map

- 2021 Q1
 - ◆ Planning & Idea
 - ◆ Team Structuring
 - ◆ Identifying Technology Partners
- 2021 Q2
 - ◆ Contract Development
 - ◆ Staking Program Launch
 - ◆ Coin Minting Started
 - ◆ Contract Deployment
- 2021 Q3
 - ◆ Crypto Purse Exchange Launch

- ◆ Idea finalized for IFE
- 2021 Q4
 - ◆ IFE Launch
 - ◆ New Staking Project Identified as PTTN Plus
 - ◆ PTTN Pro process started
- 2022 Q1
 - ◆ PTTN Plus Launch
 - ◆ PTTN Pro Launch
 - ◆ IFE Mart Idea finalized and process started
 - ◆ BIZVis Pro Idea finalized and process started

- 2022 Q2
 - ◆ Used Car Bike Project in pipe line
- 2022 Q3
 - ◆ IFE Grocery Mart

- 2022 Q4
 - ◆ Payment gateway to connect real world applications
 - ◆ Gaming
